Crenlo celebrates its 60th anniversary

ROCHESTER, Minn. (May, 6, 2011) — Crenlo, a Dover company (NYSE:DOV), celebrates its 60th anniversary this year, marking a presence in Rochester that dates back to 1951. Since its founding, Crenlo has progressed from a small company making operator cabs for Caterpillar, into a global, industry leader in the cab and electronic enclosures markets.

“Crenlo has been able to achieve this milestone through the dedication and hard work of our employees, our partnerships with industry leading customers, the support of world class suppliers and the outstanding vision and support of our owners, said Lance Fleming, CEO at Crenlo. “With our willingness to reinvest in people and cutting-edge technology and equipment, I have no doubt our growth will continue for another 60 years and beyond.”

The markets served by Crenlo have grown from solely construction equipment to now include agriculture, specialty truck, energy, defense/military, air traffic control, data communications, system integration and many more. Crenlo now supports customers and sources material on a global basis.

Fleming added, “Our company has developed and built a future on a culture of integrity, customer focus, execution, innovation and continuous improvement that has served us well and provided our customers with best-in-industry on-time delivery, quality and innovation.”

Crenlo’s cab business manufactures operator cabs and rollover protective structures (ROPS) for the construction, agriculture, industrial and specialty truck markets. Crenlo’s enclosure business offers custom electronic enclosures as well as a standard product line of enclosures and consoles under the Emcor® brand name for the test and measurement, energy, government and datacom markets.

Crenlo currently employs about 650 people in the Rochester, Minn., area.
